this book represents the first concordance of Juan Ruiz's book of good love *Libro de buen amor* written in the fourteenth century. The volume's editors, dealing with three slightly different manuscripts, have chosen to meticulously integrate the language from all three editions into one thorough concordance. The result is a significant work that serves as a companion to Ruiz's work that would be vital to any study of medieval Spanish linguistics. In addition to the usual material to be found in a concordance, this book has the following features: the text appears in diplomatic transcription from the manuscripts for fidelity; while the entry list of words has been partly normalized as for spelling for convenience, an extensive list of homographs is included; no omission of high frequency words; frequency list at the end; no reproduction of bulky and difficult computer printouts. The book has been photocomposed from the tape.

Tal y como hoy en día se pone de relieve de forma cada vez más creciente el derecho y concretamente la regulación adecuada y de calidad puede ser un elemento que permita e incentive la innovación en la sociedad o por el contrario la dificulte y la desincentive. La innovación es clave para la competitividad y el crecimiento económico de los países tanto en los niveles micro como macro. Se trata de un complejo concepto que puede referirse tanto a iniciativas sociales a la denominada economía colaborativa o a nuevas tecnologías para tomar nuevas ideas y traducirlas en resultados sociales o económicos que mejoren el bienestar de los consumidores.
